**Key:** Variety name/rootstock/origin of scion wood  
 Trees planted 3' apart in rows, with 6' alley between rows  
 Tree planting starts from north in each row  
 Cordons lean to north for maximum light interception  
 Plot is 30yds long from north to south  
 Plot is 17yds wide from west to east  
 First three (western) alleys grassed down April 2013  
 Other four alleys had grass sown April 2014  
 All trees summer pruned in August
