

Membership Secretary Report July 2022

Membership remains healthy and steady. We currently have 252 active memberships made up of 418 members. [Last year: 243 memberships with 437 members.]

We have 10 group memberships made up of 41 members [Last year: 8 groups with 42 members]

There are 281 household members [down from 310] and 96 individual members [up from 85]

65 new members have joined in the last 12 months. 23 memberships have expired with a few memberships cancellations due to house moves etc.

Most members pay by Standing Order and this is much appreciated. When paying by Bank transfer can we remind you to put the name your membership is under as the reference, and your membership number if possible? We have a surprising number of members with the same name. Also a lot of people use different names on their membership from that on their bank accounts so it can be really difficult to work out who a payment is coming from.
